

Existing Trees & Scrub Vegetation

Proposed Tree Planting

Species	Girth	Ht	Spec*	Form
Acer campestre (Ac)		min 300cm	C	Feathered
Alnus glutinosa 'Laciniata' (AgL)	18-20cm	min 400cm	RB/TS	2m c/stem
Alnus glutinosa (Ag)	10-12cm	min 350cm	RB/TS	Feathered
Crataegus monogyna (Cm)	18-20cm	min 400cm	RB/TS	2m c/stem
Juglans regia (Jr)				
Salix viminalis (Sv)	12-14cm	min 300cm	RB/TS	Feathered

Proposed Native Hedge Mix

Species	Size (height)	Spec	Density
Ilex aquifolium (25%)	60-90cm	BR	3/m²
Corylus avellana (25%)	60-90cm	BR	3/m²
Crataegus monogyna (25%)	60-90cm	BR	3/m²
Rosa canina (25%)	60-90cm	BR	3/m²

Proposed Native Shrub/Structure Mix

Species	Size (height)	Spec	Density
Acer campestre (15%)	60-90cm	BR	3/m²
Corylus avellana (25%)	60-90cm	BR	3/m²
Crataegus monogyna (25%)	60-90cm	BR	3/m²
Ilex aquifolium (25%)	60-90cm	BR	3/m²
Prunus spinosa (10%)	60-90cm	BR	3/m²

Proposed Wildflower Meadow Seed Mix

Species	Size (ht)	Spec	Density	
Cornus sanguinea	40-60cm	3Lt Pot	3 per m²	branched
Lavandula x intermedia 'Grosso'	20-30cm	3Lt Pot	5 per m²	bushy
Salix purpurea 'Nana'	40-60cm	5Lt Pot	4 per m²	bushy

Groundcover & Herbaceous:	Spec	Density
Carex muskingumensis	2Lt Pot	5 per m²
Crocus x crocosmiflora	2Lt Pot	5 per m²
Geranium 'Johnson's Blue'	2Lt Pot	5 per m²
Heuchera 'Ruby Bells'	2Lt Pot	5 per m²
Liriope muscari 'Big Blue' 2Lt Pot	5 per m²	
Pennisetum alopecuroides	2Lt Pot	5 per m²
Stipa tenuissima	2Lt Pot	5 per m²

Emorsgate Seeds - EM1 – Basic General Purpose Meadow Mixture or sim/app

NOTES:

All levels as per Architect's details

Planting beds to receive a depth of 300mm topsoil over 600mm non-compacted, non-deleterious and free draining subsoil.

All planting beds to receive 75mm Amenity Bark Mulch by Melcourt Industries Ltd or similar approved.

All measurements to be checked on site and any discrepancy drawn to the attention of the contract administrator.

All measurements are shown in millimetres unless noted otherwise.

Contractor to ascertain the location of any utilities/services prior to commencing work.

Tree planting subject to confirmation of utility easements.

Soft landscape areas to be irrigated as necessary to ensure the establishment and continued thriving of all planting.

NB: Planted areas to be monitored and irrigation adjusted according to seasonal, environmental and site specific conditions, avoiding both 'reactive' and over irrigation. Maintain all shrub and planting beds weed free.
